Compassionate Collaborative Care

Volunteering with Project Access-Collin County allows you to donate care to the uninsured in a way that is organized, equitable and safe. We will qualify and coordinate the donated care that you may already be providing, enabling you to help your uninsured patients as you would your insured patients. We take care of all the details to allow you the freedom to focus on what you do best...healing people. Call us to start volunteering today!

The mission of Project Access-Collin County is to improve the health of our community by creating access to necessary medical care and services for those most in need. We also aim to educate and empower our clients to take ownership of their health for successful long term results. Our services include access to routine and preventative healthcare, diagnostics, specialty care, medications, health education, interpretation services, transportation support and assistance with available community resources in an effort to overcome the barriers to good health and prosperity.

Project Access-Collin County is a Texas non-profit organization and is a program of the Collin-Fannin County Medical Society.

Greetings, member physicians of the Collin-Fannin County Medical Society (CFCMS).

I hope your 2023 has been productive, thus far. With Covid behind us, finally, most of us are slowly working back into what we once knew as "normal".

Your society has been busy completing the start-ups of programs that Immediate Past President, Sejal Mehta, MD, and I began last year. Incidentally, I'd like to thank Dr. Mehta for her many years of service to the society, especially her last two as its president. We all look forward to her continued work and presence, albeit in a less forward capacity.

Your medical society exists to serve you and your practice. Yes, the organization of various and complimentary social activities for us and our families is certainly a nice aspect, and, the CFCMS does it very well...pro soccer, all access waterpark, pro baseball, TopGolf, etc. However, the pace of change in the medical profession is rapid, and not always for the better. With this in mind, it is the practice and business value of medicine that the CFCMS brings to the table. I cannot encourage every member enough to take advantage of these offerings (the day of networking, "pressing the flesh", meeting with one another, face-to-face, hasn't ended).

The CFCMS disseminated over half of a million dollars (FROM ITS OWN ASSETS...NOT JUST HANDING OUT YOUR TAX DOLLARS FROM THE STATE'S PROCURED PRODUCTS) in PPE during a very rough patch in history. It was the first medical society in the nation to bring you complimentary membership into a Group Purchasing Organization (GPO), hospital level pricing saving you thousands in medical and practice supplies. It has brought you a members only, PPO health insurance product (yes, for you, your employees and your family). It has established a members only group 401(K) plan for your practice, including complimentary personal financial advice. It is in the final stages of funding a complimentary wellness program for its members. It has recently partnered with HealthcareHires.com (an online classifieds jobs board for medical positions in Texas) providing its members with complimentary job postings. It formed a political action committee (PAC) to support Collin & Fannin county elected officials supporting physicians and medicine. It has a very dynamic website offering individual profiles that contain a library of presentations, as well as the opportunity to sign-up to be a "go to" for the media in the event it is looking for specialty interviews and information; you may also help your fellow members by suggesting a "Best" business you recommend that isn't necessarily associated directly with medicine. It hosts numerous business of medicine presentations throughout the year, starting with its "inPHYnity" conference (bringing up to 7 hours of complimentary CME in one day) and hosting a variety of interesting speakers on the business of medicine. And, it is researching two new project ideas...legally approved "intake" forms, and an avenue for revenue from patient data and clinical studies.

This is the first year this Physicians Directory is published in an electronic format only. As a member of the CFCMS, you may also access its pages through your profile at www.collinfannincms.org.

The CFCMS membership is over 1,100 and has been growing at a pace of approximately 75 new member physicians each year for the last several years. Please encourage your colleagues to support the society and join, today. As president, I am always open to hearing your ideas about expanding the "offerings" this society should consider.

I wish you, your families' and your practices all the best, and I look forward to hearing from you and meeting you throughout the year.

Sincerely,

D.J. Verret, MD, FASC

Manage Costs and Get Group PPO Health Insurance With or Without Employees

Owners

Independents

Whether you own a practice with employees or practice independently, most physicians want to find ways to reduce expenses. And one of the most significant expenses for physicians is health insurance.

TMA Insurance Trust is focused on helping all Texas physicians manage costs and operate more efficiently. So we want you to know about special health insurance options that can help you control costs and get the coverage you really want. This goes for practice owners and independents – with and without employees.

To help control health insurance costs call **1-800-880-8181**, **Monday through Friday from 8:00 AM to 5:00 PM, CST**, or scan the QR code to call. ▶
